NEW VANGUARDTM

Now... a virus discovery so significant it creates an entirely new generation of vaccines!

Here's the first major breakthrough in canine hepatitis immunization since the first vaccines were introduced more than 25 years ago.

Norden's Vanguard utilizes a new and exclusive canine adenovirus type-2 isolate. In conferring immunity against basic adenovirus type-1 (hepatitis) infections, Vanguard also provides proven protection against adenovirus type-2 (respiratory) infections. These are characterized by pneumonia, tonsillitis, pharyngitis, bronchitis... as well as causing lung lesions and being a factor in kennel cough.

Hand in hand with this cross-protection, Norden Vanguard achieves a new level of safety. For example, post-vaccination incidence of "blue eye" is sometimes associated with adenovirus type-1 hepatitis vaccines. No Vanguard vaccine-related "blue eye" was found in tests involving 16,000 dogs. Even when 172 dogs were deliberately inoculated intravenously with vaccine virus, there was no sign of ocular lesions in any of the animals.

The Vanguard virus is non-oncogenic as demonstrated in comprehensive two-year tests by Norden researchers. The protocol for these tests was reviewed by the National Institutes of Health, and the

results of these extensive tests were accepted by the USDA. Other Norden tests showed the Vanguard virus did not produce kidney lesions, nor was there any evidence of shedding or reversion to virulence.

Vanguard is available now from your Norden branch as a replacement for our former Enduracell line.

**REAL
BEEF**

You've got a kennelful of meat-lovers. And there's nothing more likely to make them grateful than adding some ALPO to their dry.

ALPO Beef Chunks Dinner gives them what most other dog foods don't. Lots of real beef, plus hearty meat by-products. Soy for better balance. And vitamins and minerals to complement the nutrition of your present feed. You can also serve it as a complete ration straight from the can. Either way, don't champions like yours deserve at least a little ALPO?

Congratulations,
